BENEDICTUS YOGATAMA FAVIAN SATYAJATI

+6281383781904 | *yogatama4561@gmail.com* | *linkedin.com/in/benedictus-yogatama* | *github.com/benedictusyoga*

Tangerang, Indonesia

Aspiring iOS developer with hands-on experience building scalable, user-centered applications using Swift, SwiftUI, and SwiftData. Proficient in MVVM architecture, REST API integration, and modern development practices including Git workflows and CI/CD pipelines. Experienced with cloud services (Firebase, AWS, Azure) and backend technologies (Laravel, ASP.NET). Committed to writing clean, maintainable code while collaborating in agile environments. Seeking a team that values innovation, best practices, and continuous learning.

WORK EXPERIENCE

Mar – Dec 2025

Apple Developer Academy @ BINUS
Backend iOS developer and CI/CD lead - Tiny, pregnancy companion to help parents connect with baby with heartbeat
- Established firebase backend with authentication, object storage, and firestore capabilities
